In 2007, our proposal to continue being involved in Bike Show BCN, given the success we achieved in 2006, means we'll be positioning all our activities at the highest possible level. That's why we want this Trial to be included in the UCI World Cup Trials.

Barcelona is one of the most dynamic and modern cities in Europe today, guaranteeing an incomparable setting for organising events like this.

**Infrastructures:**

The Palau Sant Jordi of Barcelona, which in 2007 will again host the Bike Show BCN, boasts the best conditions possible, offering stages and all kinds of facilities, including press and meeting rooms, exhibition halls, organisational spaces and VIP areas.
